Brief Summary

Join Sean on his journey through the horrors of WWII flying missions over Europe, only to return home and struggle to readjust to civilian life. Just as he begins to find stability, he is called back to the U.S. Air Force to fly combat missions over Korea. As Sean rises through the ranks and become a key member of General LeMay's Strategic Air Command (SAC) bomber forces and serves during pivotal moments in history, such as the Cold War, the Cuban Missile Crisis and the early days of the Vietnam War, readers will be taken on a thrilling ride full of danger and emotion. If you're unfamiliar with historic military events like "The Double Mission," "Big Week," "MiG Alley," "Operation Hudson Harbor," and "Operation Rolling Thunder, this novel is a must-read.
